**PORCELAIN  
PERFECTED**

2024 COLLECTIONS

## Welcome to TULU PORCELAIN.

As the Founders, and people intricately involved in the alchemy of transforming earth into art, we are delighted to present to you a catalogue that is much more than a collection of our collections - it's a narrative of our dedication, a testament to the craft we have honed over decades, and a glimpse into the future we envision.

Porcelain is not just our business; it's our passion and a legacy that we are proud to carry forward. Each piece in our collections is a story told through the hands of our master artisans, all embodying 'Porcelain Perfected.'

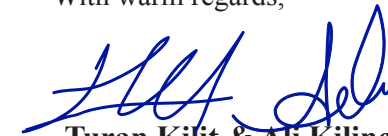

This year marks a significant milestone in our journey as we unveil our rebranding. Our new look is a reflection of both our reverence for tradition and our commitment to innovation. It speaks to the core of who we are: a brand that respects the timelessness of porcelain while embracing the contemporary touches and technology that today's market appreciates.

We invite you to look through the pages of this, our latest catalogue, which is the result of countless hours of meticulous design and creative dedication. You will notice new collections that echo our passion - modern yet timeless, sophisticated yet accessible.

We welcome you to explore, to dream, and to find those perfect pieces that resonate with your personal style. Our rebranded collections are not just retellings of old tales; they are new chapters waiting to be filled with your culinary stories.

Thank you for joining us on this journey of beauty and refinement. May your exploration through our catalogue be the start of a splendid addition to your space.

With warm regards,

**Turan Kilit & Ali Kilinc**  
Founders, TULU PORCELAIN.

## FROM EARTH TO ART : THE TULU PORCELAIN STORY

Born out of necessity and a drive for excellence, TULU PORCELAIN's journey began within the bustling world of the HORECA industry. As proud owners of 25 premium hotels, we faced a pressing challenge: finding porcelain durable enough to meet our hospitality's rigorous demands.

So we took matters into our own hands. We acquired a porcelain factory, embracing its rich tradition, and tailored it to align with our unique needs. As our own first customer, we innovatively refined and improved the production process, ensuring every piece lived up to the exacting standards of our own hotels.

But our vision didn't stop there. Recognising that every home mirrors a professional kitchen's demands, we expanded our horizons to the retail sector. Given TULU PORCELAIN stood the test of time in hotels and restaurants, it's perfectly destined to grace every household table, turning every meal into extraordinary experience.

Founded in 2021 by Turan Kilit and Ali Kilinc, TULU PORCELAIN has quickly become a respected player in Turkey's ceramics industry. With its primary focus on B2B production for the domestic market, the company is expanding internationally through partnership and collaboration.

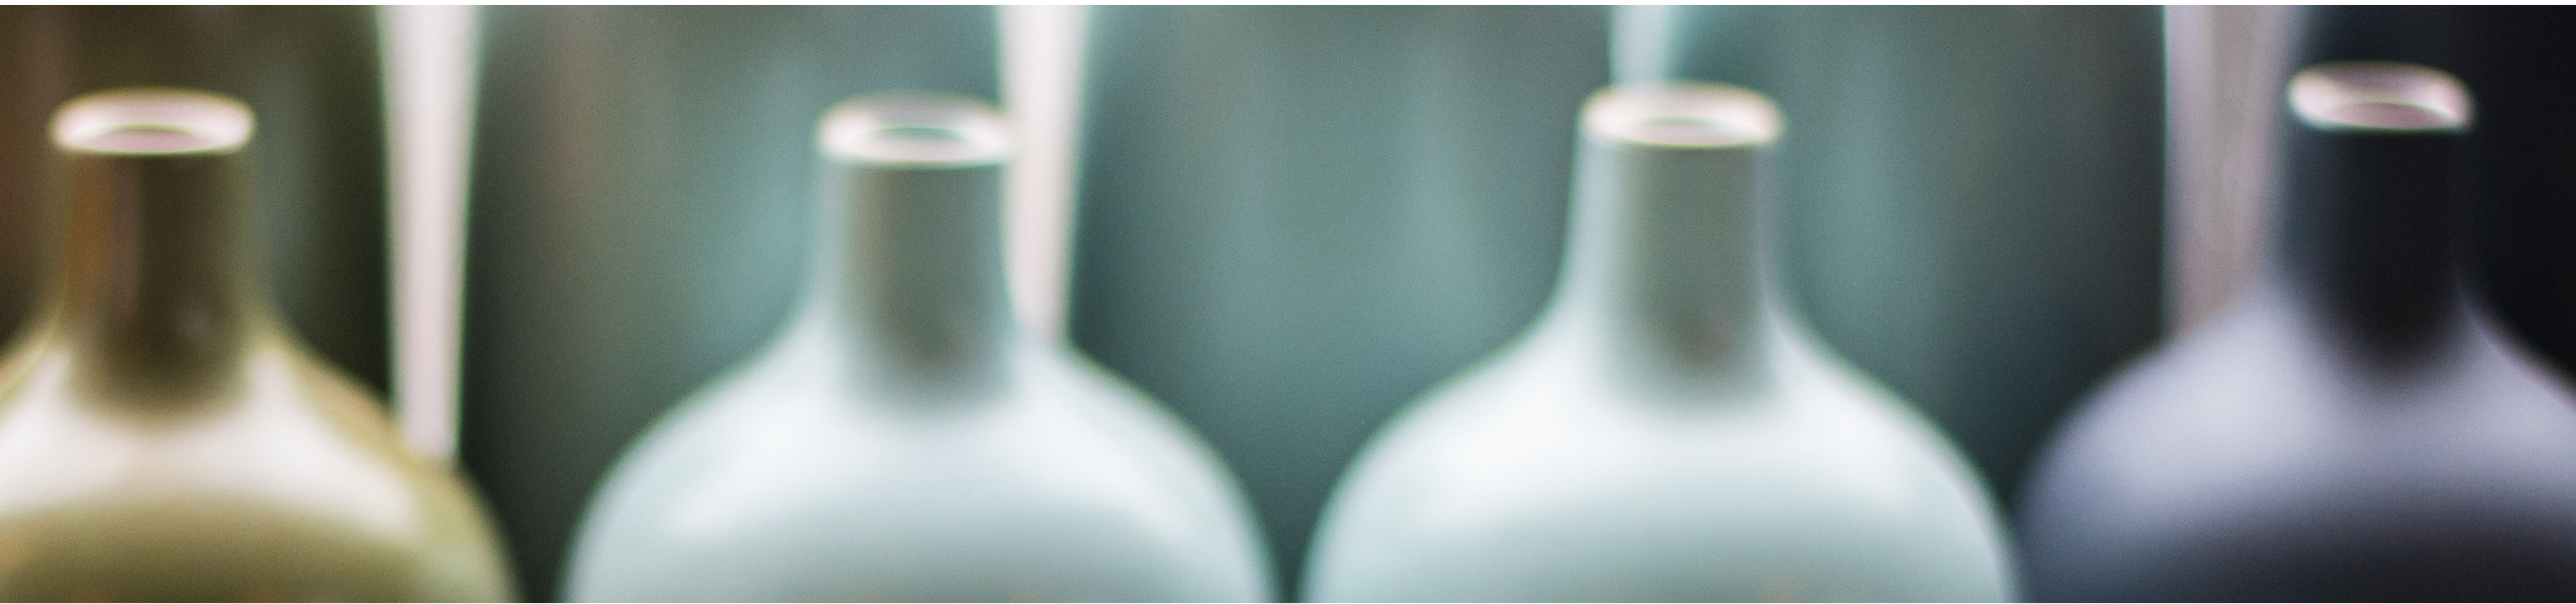

TULU PORCELAIN stands out for its innovative approach to material composition and firing. In September 2023, the company launched a unique line of fine porcelain built upon its own 'HydroZero™ inside' ingredient technology, notable for its shade of cream, high transparency, and exceptional durability.

Geared for growth and supported by a robust infrastructure, including two factories and a logistics centre, TULU PORCELAIN embodies a blend of traditional craftsmanship and cutting-edge innovation, making it a rising star in both the domestic and international markets.

**Porcelain. Perfected.**

## THE CRAFT OF PERFECTION.

At the heart of TULU PORCELAIN's manufacturing process stands a symphony of tradition harmonized with the cutting edge of innovation. Our artisans, inheritors of time-honoured practices, meticulously shape each creation and collection, bringing life to the clay with techniques passed down through generations.

But, as much as we honour the past, we are not bound by it. We embrace modern technology to enhance the very fabric of our craft, ensuring every design is not only unique but also a benchmark of exceptional quality.

Enter our **HydroZero™ inside** technology - a testament to our relentless pursuit for Porcelain Perfected. This revolutionary technology stands as a case study of our commitment to transcendent quality and design, the marriage of form and function.

**HydroZero™ inside** started with an observation: When porcelain is fired at lower temperatures, some water content remains within the clay, and not all chemical reactions that change the colour are fully completed. It's this residual moisture that gives the softer, warmer feel. That's good for colour but bad for strength.

But when porcelain is fired at higher temperatures, above 1,200°C, almost all the water content is removed, and additional chemical reactions occur. The kaolinite in the clay undergoes a transformation into a new mineral known as mullite. This causes the porcelain to become more translucent and it takes on a bright, harsh white colour. That's good for strength but bad for colour.

Retaining the soft, warm creamy colour and keeping the strength needed a unique process. Our **HydroZero™ inside** composition and firing technology maintain all the strength of high-fired harsh white porcelain as well as all the low-fired creamy white colour that everyone loves.

Simply put, with **HydroZero™ inside** you can have the best of both worlds.

This pursuit for a blend of strength and beauty has been our guiding star. **HydroZero™ inside** technology is the culmination of this relentless pursuit of perfection. With it, we have mastered the alchemy that marries the unyielding durability of high-fired porcelain with the dreamlike hue of its lower-fired kin.

This innovation propels us to the forefront of the porcelain industry, redefining what's possible. It allows our creations to stand strong without forgoing beauty. It is here, within the fusion of these dualities, that TULU PORCELAIN truly embodies Porcelain Perfected - creating pieces that are not only tough but also exude an elegance that is the signature of our brand.

Porcelain with **HydroZero™ inside** is more than another product; it's the embodiment of our promise: **Porcelain. Perfected.**

**HydroZero™ inside**

## PORCELAIN. PERFECTED.

It's not just our slogan.

It's been the driving intention behind our story from the beginning.

It's not a destination, but an expression of our relentless ambition to refine and enhance.

We believe perfection is an experience, an encounter with the exquisite.

Perfection isn't simply making something new. It's making something better.

Not just different. Something wonderful. Something unexpected. Something that takes everyone by surprise and opens their eyes to a new way of thinking.

Perfection can make complicated things simple. Or it can make simple things incredible.

But it always makes things better.

Perfection, real perfection, doesn't come from just finding answers. It comes from finding new questions. From using each new discovery, to discover more new opportunities. Perfection pushes boundaries.

It doesn't come from meeting people's expectations. It comes from anticipating the expectations that they might have in the future. It doesn't catch up. Perfection leads.

So Porcelain Perfected is not just a philosophy, or goal.

It is the benchmark, against which we judge everything we do.

We passionately strive to genuinely perfect porcelain.

Genuine advances such as our new HydroZero™ inside ingredient technology.

Composition and firing that keeps all the strength of high-fired harsh white porcelain with all the low-fired creamy white porcelain colour everyone loves.

Beautifully strong porcelain that works hard and looks great.

Porcelain that delivers the best of both worlds.

Porcelain that doesn't just set tables, it sets standards.

So for us, Porcelain Perfected is not an abstract concept; but a tangible reality

It's more than a statement; it's a promise.

A promise of unparalleled quality and design.

A promise that you're not just purchasing tableware, you're buying into an ethos where perfection is fired into the essence of our company and the very material of every piece we produce.

That's why at TULU PORCELAIN we can promise...

**Porcelain. Perfected.**

## SHAPING OUR FUTURE

In Turkish, “Tulu” generally refers to “sunrise” or “dawn.” It signifies the time when the sun first appears on the horizon, bringing with it the recurring and renewing light of a new day. The word embodies a sense of renewal, rejuvenation, and the start of something new. “Tulu,” perfectly captures the essence of our brand: as sure as the sun will rise, we promise continuous rejuvenation, innovation and enduring brilliance. We promise Porcelain Perfected.

The story of TULU PORCELAIN began in the heart of Kütahya, where the sun’s warm embrace meets Mother Earth’s rich clays. Established in 1995, our journey transitioned from chinaware to ceramics, culminating in the mastery of porcelain. TULU PORCELAIN, with a legacy deeply rooted in Kütahya’s historical artistic culture, stands as a testament to craftsmanship, innovation, and passion.

Our mission is to lay the world’s tables with trust, quality, service, and transparency. As a brand, we recognise the importance of understanding, unity, and integrity. We don’t just manufacture porcelain; we craft stories, create emotions, and forge bonds. By prioritising customer satisfaction and integrating Kütahya’s historical artistic tile and porcelain culture, we aim for global recognition, not just as a leading porcelain producer, but as an emblem of Turkish artistry and innovation.

**Our vision is clear:**

**“TO PUT TULU PORCELAIN ON EVERY TABLE WORLDWIDE.”**

In pursuit of this vision, our commitment to excellence ensures that every piece we produce embodies beauty, strength, tradition and innovation. Be it the tables of Turkey or the dining spaces of the World, we aspire to be the guest of honour, knowing that we are not just setting a table, but setting the standard.

Porcelain is more than just a material; it’s a canvas where dreams meet reality. At TULU PORCELAIN, we don’t just produce; we perfect.

So, the next time you set your table, let TULU PORCELAIN be a part of your story, your moments, and your memories. After all, in the world of porcelain, it’s not just about making products; it’s about perfecting them.

**Porcelain. Perfected.**

A top-down view of a collection of white ceramic dishes with blue patterns, including a teacup and saucer, a small bowl, and several plates, arranged on a light-colored surface. The blue patterns include a dense, textured border and a central circular motif with a cracked, mosaic-like appearance. In the bottom right corner, there are several smooth, light-colored stones.

A hand is shown holding a white plate with a blue marbled rim. The plate contains a serving of penne pasta, pine nuts, and a fresh basil leaf. The background is filled with various other dishes, including what appears to be a salad with tomatoes and a dish with green vegetables, all slightly out of focus.

TU™  
LU

DISCOVER

PORCELAIN.  
PERFECTED

At Tulu, we believe porcelain is not just a product for function but a canvas of experience, a conduit for connection. Each piece embodies our commitment to excellence, blending timeless techniques with modern innovations, to craft not just porcelain pieces, but a lasting brand promise.

Our journey is fuelled by our dedication to Perfecting Porcelain. With every raw material, process, firing, glaze, curve, glint, colour and texture, we seek to elevate the ordinary dining experience into something memorable. TULU PORCELAIN is not about just setting the table; it's about setting a standard.

Easy to say, but harder to prove. That's why we developed our groundbreaking 'HydroZero™ inside' ingredient technology. It encapsulates our ethos: marrying beauty with strength in porcelain. This innovation ensures that businesses in the HORECA sector can offer their customers a consistently outstanding dining experience, one that stands up to the rigors of time and use.

And we know that as we move forward, with our clear and simple vision and "Porcelain Perfected" as our guiding beacon, we will not only reach every table, but touch every heart, turning every meal into a memory.

Join us on this journey, we will perfect porcelain together.

**Porcelain. Perfected.**
